

SIMPLY SCREED PETROL

VIBRATING SCREED

SIMPLICITY AND AUTONOMY

Description

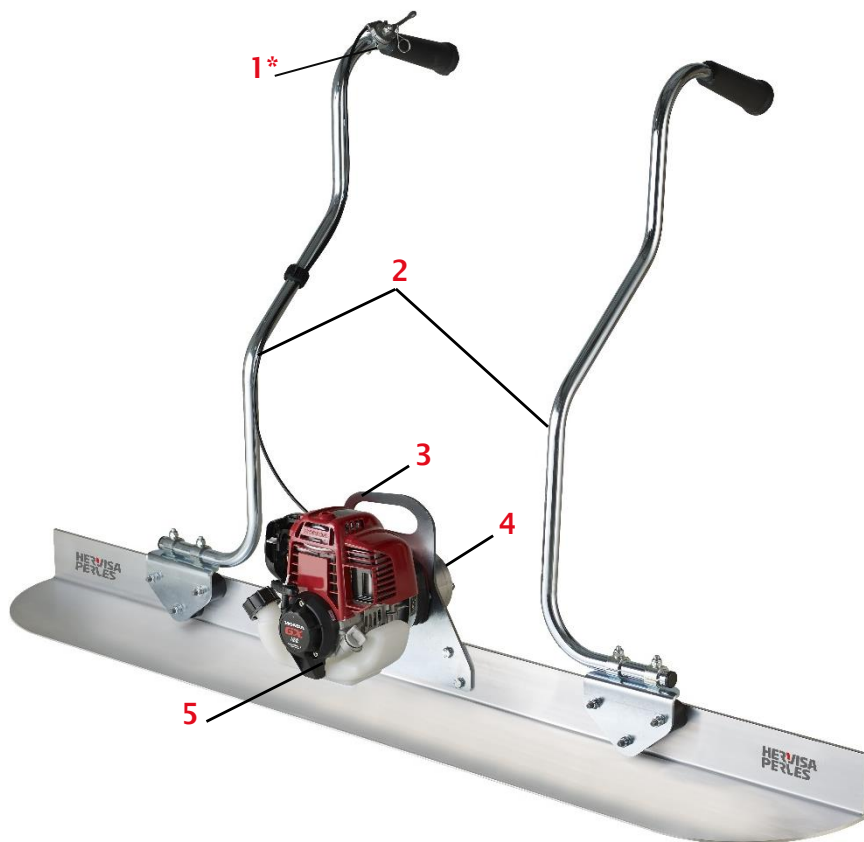

Lightweight petrol vibrating screed high performance, excellent value quality-price.

Its 90° profile with rounded edges prevents from nailing into the concrete while the wider surface allows greater amount of concrete collection / extension in less time and effort.

Special for concrete extending and paving.

COMFORTABLE ERGONOMIC ANTIVIBRATION HANDLEBAR with accelerator, that regulate the speed depending on the needs of each job.

Petrol motor HONDA GX 25 4T and transport handle.

Main Features

- **RESISTANCE** Made of aluminum.
- **MOBILITY AND COMFORT** Lightweight. Total control from handlebar and easy carry handle.
- **SECURITY** Cushions reduce vibration spread to operator (hand-arm).
- **POWER AND PERFORMANCE** Efficient and high-performance petrol motor. Huge profile lengths range designed to make easy drag-and-thrust while paving concrete.
- **QUALITY** Abrasion resistant materials.
- **AUTONOMY** Powered by petrol motor, does not require electric power supply.
